Helsinki University of Technology
Lab of Computer and Information Science

Tik-61.184 Special Course in Information Technology
autumn 2000

Exercises, Session 5

1. Discuss the motivation and validity of the application of a linear transform such as ICA to text based documents.
2. Compare and contrast the methods outlined by Kolenda and Hansen (2000) with that of Kaban and Girolami (2000) as they are applied to text document processing.
